Mina P.V.

**Mina Papatheodorou Valyraki** is one of the most celebrated artists currently working in Greece. Known for her depictions of luxury race cars, her work has been exhibited worldwide in galleries, showrooms, and private collections. In January 2015, she received the "IOC Trophy 2014 - Art and Sport" Award by the International Olympic Committee in HOC, first time given to an artist & solo exhibition at the HOC venue. She has presented her work in more than 60 one woman shows in Greece, Italy, USA, Brussels, Spain, China, UAE, France, etc, as well as group exhibitions from 1983 till now. Since 2000, she collaborates with Bonhams British auction house. She lives and works in Athens, Greece and Florence, Italy.

About the piece:

The racing cars' shape and the speed configuration have been one of Mina's interests since she was a student, prompted from her visits to Monte Carlo and the Formula 1 Grand Prix. It is there that she was inspired to study the grandeur of movement in regard to the particularly well thought out design of an object which through its perpetual development becomes a technological state of the art. This is how the subject of the series 'Formula' was born. The colour here gives the speed pulse and from a means of expression becomes a means leading to freedom. The steady lines of her composition manage to address not only to the optical nerve but to the acoustic one as well since the spectator 'listens with the eyes' the deafening motor sound and the monstrous rubbing of the tires on the tarmac.

Opening Bid \$40

Owners of the first ever U.S. mastihashop, sisters Artemis and Kalliopi Kohas, were born to Greek immigrant parents in Allentown, PA. The Kohas sisters spent years promoting mastiha before opening

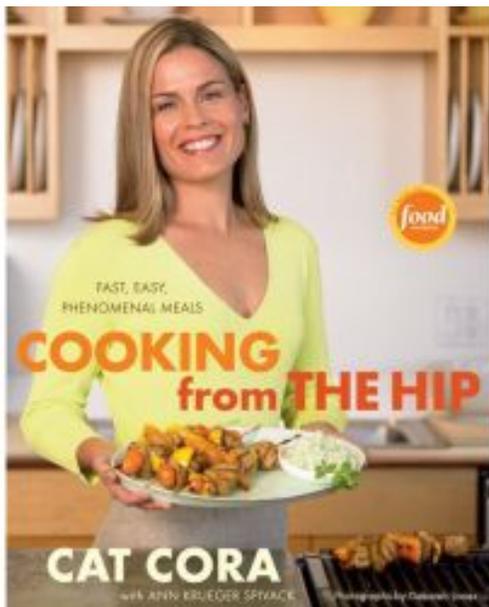

mastihashop in the U.S. Their collaboration with Mediterra S.A., the daughter company of the Chios Mastiha Growers Association and the entity that created the "mastihashops", began in 2004 with discussions of a store in New York. In 2006, the Kohas sisters became partners in the mastihashop in Mykonos and in December 2007 were ecstatic to open the doors to the very first U.S. mastihashop located in Manhattan. For Kalliopi and Artemis, teaching people about mastiha and opening mastihashop is their way of continuing their ancestral legacy and their father's American Dream.
